A sample report

The author

Thu May 17 13:03:43 2012

The first part of my R script

Here I can generate my data

```r
a <- matrix(rnorm(100), nrow = 10)
```

Results

An now the reults are plotted

```r
image(a)
```

More

Of course I can use inline elemtnts: $3 + 3 = 6$.
